The five elements philosophy in Japanese Buddhism and Hinduism, godai (ä"å¸, lit. "five great"), is derived from Buddhist beliefs. It is perhaps best known in the Western world for its use in Miyamoto Musashi's famous text Gorin-no-sho (The Book of Five Rings), in which he explains different aspects of swordsmanship by assigning each aspect to an element.

An electric power system is a network of electrical components deployed to supply, transfer, and use electric power. An example of an electric power system is the grid that provides power to an extended area. An electrical grid power system can be broadly divided into the generators that supply the power, the transmission system that carries the power from the generating centres to the load ...
