OBJECTIVES: Medical neglect can have serious consequences. There is little evidence base to guide medical neglect management and research. Our objective was to describe a group of children reported to child protective services (CPS) for medical neglect to define this population as well as identify prevention and intervention approaches.

Characteristics of Children Reported to Child Protective

Global action plan on antimicrobial resistance: French version; Global action plan on antimicrobial resistance: Russian version; Overview. Antimicrobial resistance threatens the very core of modern medicine and the sustainability of an effective, global public health response to the enduring threat from infectious diseases.

WHO | Global action plan on antimicrobial resistance

The research has classified modern slavery offences in the UK into a typology of 17 distinct types. For each type, the report outlines the characteristics of the typical victims and offenders, and ...
