

### **pink and other colours pdf**

In audio engineering, electronics, physics, and many other fields, the color of noise refers to the power spectrum of a noise signal (a signal produced by a stochastic process). Different colors of noise have significantly different properties: for example, as audio signals they will sound different to human ears, and as images they will have a visibly different texture.

My own guess is that there are some pinks in the State Department and in other government departments and agencies, and of course they should be found and ousted; but it seems to me that this can be done without besmirching innocent people and without making such broadside charges that people will lose faith in all government. Ben Hibbs

### **pink - Wiktionary**
