Home; Online database : Official UN population estimates (1950-2050) and projections (2004-2050) for the world, 6 major areas, 21 regions and 228 countries or areas.

POPIN >> Population (Functional Commissions and Secretariat)

2016 NSW population and household projections . Population projections show that NSW will grow to 9.9 million people by 2036. The Department of Planning and Environment uses population and household projections to help plan for service and infrastructure delivery for the community.

Population projections - Department of Planning and

In biology, a population is all the organisms of the same group or species, which live in a particular geographical area, and have the capability of interbreeding. The area of a sexual population is the area where inter-breeding is potentially possible between any pair within the area, and where the probability of interbreeding is greater than the probability of cross-breeding with individuals ...

ActionBioscience.org examines bioscience issues in biodiversity, environment, genomics, biotechnology, evolution, new frontiers in the sciences, and education. Includes peer-reviewed articles, class lessons, and educator resources

ActionBioscience - promoting bioscience literacy

Research Brief. Between 1960 and 1999, Earth's population doubled from three billion to six billion people. In many ways, this reflected good news for humanity: child mortality rates plummeted, life expectancy increased, and people were on average healthier and better nourished than at any time in history.

PRB's World Population Data Sheet, one of our signature products, has been produced annually since its debut in 1962. This and other PRB data sheets are used by thousands of people worldwide as a ready reference for comparing key demographic and health indicators by country and region, and for population projections and analytical graphics that bring key data insights into focus.
