practical forestry in the pdf

Forestry is the science and craft of creating, managing, using, conserving, and repairing forests, woodlands, and associated resources for human and environmental benefits. Forestry is practiced in plantations and natural stands. The science of forestry has elements that belong to the biological, physical, social, political and managerial sciences.

Forestry - Wikipedia

Virginia Department of Forestry (VDOT) manages State Forests, enforces forestry laws, fights wildfires, performs forest resource planning and forestry outreach education in forest stewardship, and forest industry economic development.

Introduction. South Carolina's Forestry Best Management Practices (BMPs) give forest landowners and the professional forestry community guidelines to follow in practicing good stewardship on our valuable forestland. Good stewardship during forestry activities will protect the water quality of nearby streams, lakes, or ponds.
