project based learning made pdf

Project-based learning (PBL) is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem.

In project management a project consists of a temporary endeavor undertaken to create a unique product, service or result. Another definition is: a management environment that is created for the purpose of delivering one or more business products according to a specified business case. Projects can also be seen as temporary organization. Project objectives define target status at the end of ...
