Cognitive functions, also referred to as psychological functions, as described by Carl Jung in his book Psychological Types, are particular mental processes within a person's psyche that are present regardless of common circumstance. This was a concept that served as one of the conceptual foundations for his theory on personality type. In his book, he noted four main psychological functions ...

Beyond the Pleasure Principle (German: Jenseits des Lustprinzips) is a 1920 essay by Sigmund Freud that marks a major turning point in his theoretical approach. Previously, Freud attributed most human behavior to the sexual instinct (Eros or libido). With this essay, Freud went "beyond" the simple pleasure principle, developing his theory of drives with the addition of the death drive(s) ...

On The Relationship between Birds and Spirits of the Dead

Seth Material
"The relationship between birds and spirits of the dead is a complex one, involving the interplay of the conscious and the unconscious. In his 1920 essay, Freud explored the concept of the 'beyond the pleasure principle', which suggests that human behavior is not solely driven by the pursuit of pleasure, but also by the desire to avoid pain or discomfort. This concept is particularly relevant to the study of the unconscious, as it suggests that there are forces at work that are not accessible to the conscious mind. The relationship between birds and spirits of the dead is a classic example of this phenomenon, as it involves the interplay of the conscious and the unconscious.
