ACR Guidance Document on MR Safe Practices: 2013

Radiography is an imaging technique using X-rays, gamma rays, or similar radiation to view the internal form of an object. To create the image, a beam of X-rays or other form of electromagnetic radiation is produced by an X-ray generator and is projected toward the object. A certain amount of the X-rays or other radiation is absorbed by the object, dependent on the object's density and ...

Reporting guidelines. European Radiology strongly encourages authors to follow reporting guidelines, most commonly STARD, STROBE or PRISMA when preparing their study. These guidelines can be accessed via the Equator Network website:.. STARD â€œ Reporting of diagnostic accuracy studies; STROBE â€œ Reporting of observational studies

Submission Guidelines - European Radiology

Radiographers, also known as radiologic technologists, diagnostic radiographers and medical radiation technologists are healthcare professionals who specialise in the imaging of human anatomy for the diagnosis and treatment of pathology. Radiographers are infrequently, and almost always erroneously, known as x-ray technicians. In countries that use the title radiologic technologist they are ...

Hey Diana! If I understand the question correctly, you have a set of DICOM images, each with different real-life size (L * W * H mm), all of which you want to be able to resample to the same pixel dimensions (X * Y * Z) while maintaining 1 x 1 x 1 mm voxel sizes.

DICOM Processing and Segmentation in Python â€“ Radiology

The implementation of the widespread clinical use of breast magnetic resonance imaging (MRI) has been impeded by the lack of standardization of breast MRI techniques, lack of availability of breast MRI-guided interventional tools, lack of training in breast MRI, and an apparent low level of specificity.

Management of Breast Magnetic Resonance Imaging-Detected

(HPS) Human Phenomic Science Application due date: Tuesday, May 23, 2017, at noon for a project start date of 7/1/2017. The Institute for Translational Medicine and Therapeutics (ITMAT), the Penn Center for Precision Medicine, the Abramson Cancer Center (ACC) and the Department of Radiology plan to support pilot grants in the area of Human Phenomic Science (HPS).

CME Accreditation. The EUSOBI Annual Scientific Meeting 2018, Athens, Greece, 11/10/2018-13/10/2018 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 16 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

INTRODUCTION. The imaging evaluation of the musculoskeletal system has been object of a range of studies recently published in the Brazilian radiological literature (1-7). Among such studies, some related to the vertebral spine are highlighted (8-10).. Spondylodiscitis represent 2%â€“4% of all cases of skeletal infection and its radiological diagnosis is based on the demonstration of the ...

To date, there are few specific guidelines published on the optimal approach to cavitary lung disease.^{1, 2} The intention of this review is to highlight the specific clinical, laboratory, and radiographic features that can help guide clinicians in their approach. For purposes of this report, radiographic findings refer to abnormal chest imaging features seen on CT scans of the chest.
