Psychology of Violence Sample Articles

definition of violence is the act of causing physical harm. In this book I focus on violence directed against individuals, not against objects. The roots of violence have been linked to a developmental failure to conceptualise one's own and other people's states of mind. What is too painful to be thought about may be enacted.

gang-related violence and general violence. This reflected two considerations. First, this distinction can be tenuous and difficult to make. Second, a principal focus of the study was on improving violence interventions for gang-affiliated offenders. These interventions do not routinely distinguish between violence occurring in different contexts.
