Helping Your Child Learn Science (PDF) - US Department of

Scientists in Science Education Introduction As schools prepare today's students to live in the highly globalized and competitive 21st century, the need for every student to receive a good science education has never been more pressing.

Scientists in Science Education - The American Society of

Cutting back on hands-on science Hands-on science education seems to be in short supply in our schools. The following figure from the Lawrence Hall of Science 2000 study of elementary schools⁶ is sobering: This chart shows the number of minutes per week spent on science education in K-5 schools in the San Francisco Bay Area in the year 2000.

in science & technological education 70 Annex 3. Science teaching by inquiry for primary school 74 Annex 4. Learning about, for and through lemurs: science and environmental education in Madagascar and the UK through sustainable teacher development. 77 Annex 5. A challenge for science literacy: doing science through language. 81 Annex 6.

Current Challenges in Basic Science Education

This report contains the status of computer science education policy across the nation and a first look at school-by-school data on the availability of computer science in high schools. Across 24 states, only 35% percent of high schools in the US teach computer science. In addition, Black and Hispanic students,

State of Computer Science Education - code.org

8 science education for responsible citizenship Science education should be an essential component of a learning continuum for all, from pre-school to active engaged citizenship.

SCIENCE EDUCATION - European Commission

To provide such information, university research and academic programs, too, must break free from a narrow focus on specific disciplines (such as teaching mathematics) and instead view education through a wider lens that includes the science of learning (such as the development of mathematic reasoning skills).
