The New England transmission system serving the southern New England (SNE) area was studied to evaluate projected future load and generation requirements to assess the performance of the transmission system and its ability to meet existing reliability standards.

Southern New England Transmission Reliability (SNETR)

bors of the southern New England languages were Munsee Delaware to the southwest, Mahican to the west, and Abenaki to the north. Addition-ally, there is reason to believe southern New England languages once extended northwards along the Atlantic coast into southeastern New Hampshire and coastal Maine, though this is far from certain.
