Unit 2: The Fundamental Interactions 2 [www.learner.org](http://www.learner.org) Section 1: Introduction The underlying theory of the physical world has two fundamental components: Matter and its interactions. We examined the nature of matter in the previous unit. Now we turn to interactions, or the forces between particles.

perhaps the universe (more commonly known as the multiverse) didn't have a beginning. However, the observable universe did have a definite beginning in every model. Quark Epoch (10 s-10 s-12 -6) At the beginning of this epoch, the weak force separated from the electromagnetic force, resulting in the four forces known today.

Gravity, or gravitation, is one of the fundamental forces of the universe. In everyday use, it describes the force which causes objects to fall onto the ground. Newton's laws discuss how gravity keeps the Solar System together and Einstein's theory of general relativity is about the role of gravity in the universe.
