### **Data Science for Tackling the Challenges of Big Data**

Big data refers to data sets that are too large or complex for traditional data-processing application software to adequately deal with. Data with many cases (rows) offer greater statistical power, while data with higher complexity (more attributes or columns) may lead to a higher false discovery rate. Big data challenges include capturing data, data storage, data analysis, search, sharing ...

In American football, an official is a person who has responsibility in enforcing the rules and maintaining the order of the game.. During professional and most college football games, seven officials operate on the field. Beginning in 2015, Division I college football conferences are using eight game officials. College games outside the Division I level use six or seven officials.
